## Step 1

# GET WEB HOSTING

- Website hosting is essentially the space you rent out on the internet where your website will reside.
- There are many options for web hosting. We recommend [Bluehost](#). They make it easy and affordable to get started and have great customer support.

Click "Get Started"

**Get Started**

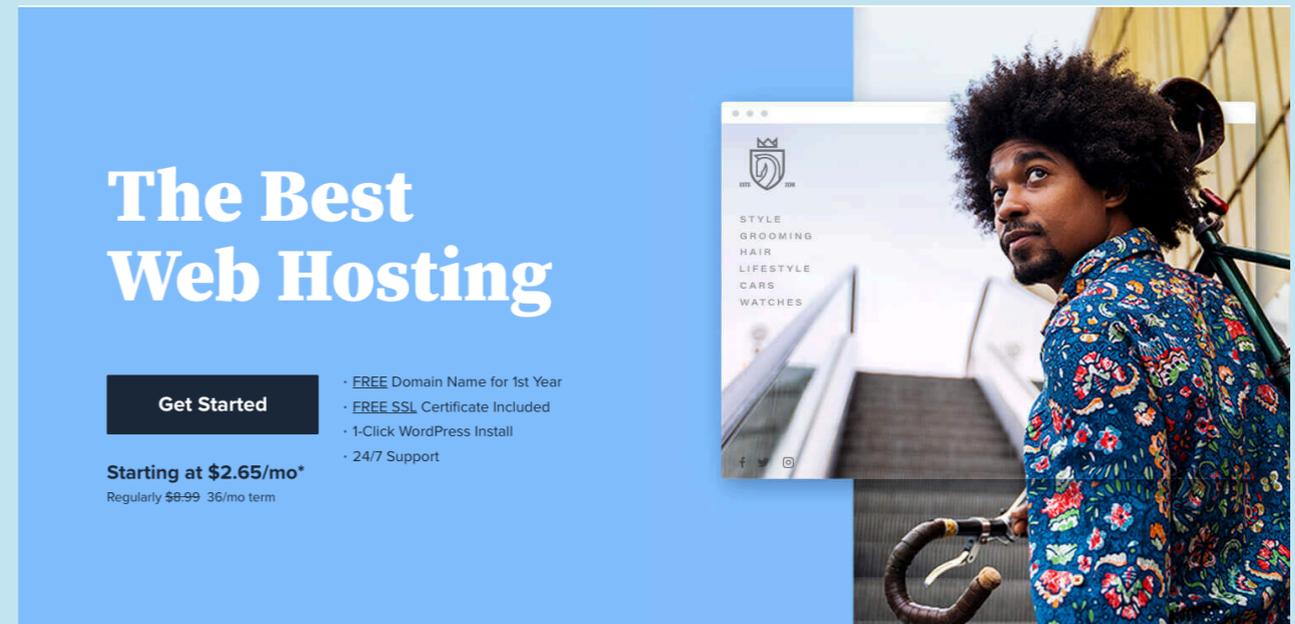

## Step 2

# CHOOSE A PLAN

We recommend signing up for 3 years because you will get the best monthly rate. If you prefer you can also sign-up for 1 or 2 years

You will be prompted with a page similar to this, click the **GET STARTED** button

**Choose a plan.** You can start with the Basic Plan if you are on a budget and are creating a basic website. We recommend the Plus or Choice Plus plan if you plan on scaling or creating multiple websites in the future.

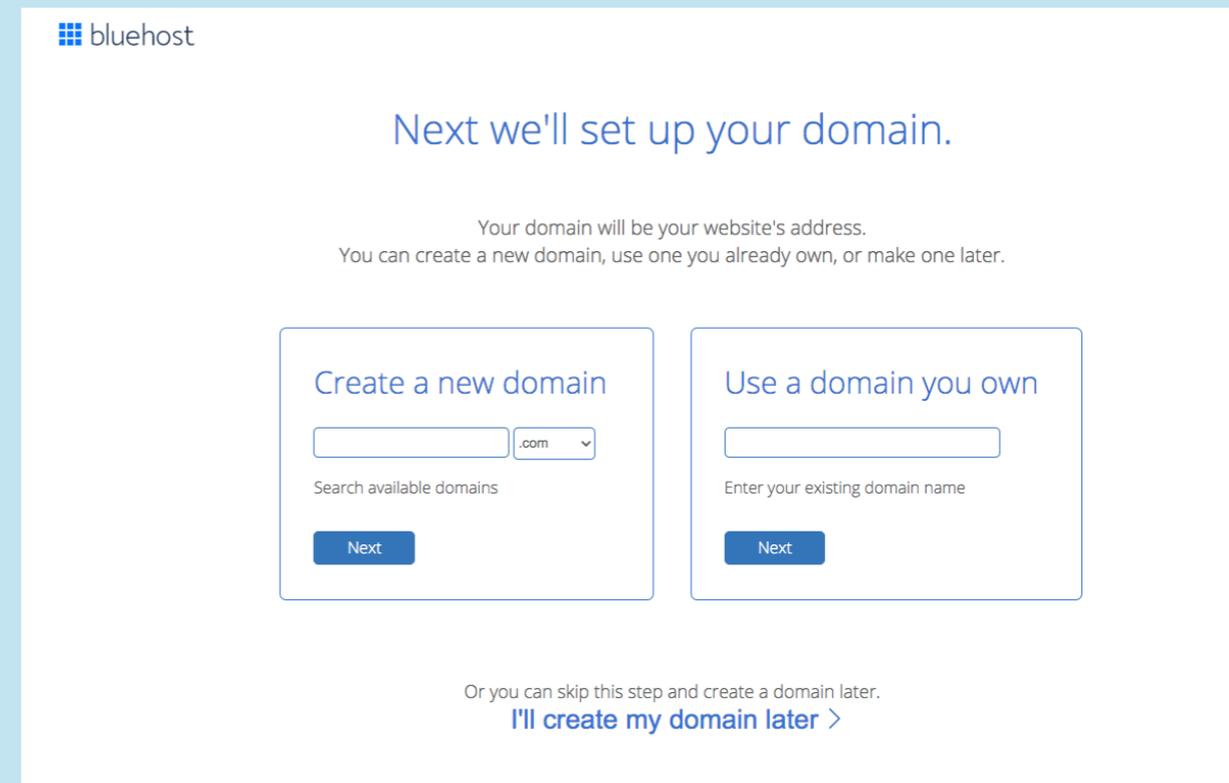

(below prices may vary from what you see)

		Recommended	
<b>BASIC</b> When you need just one site.	<b>PLUS</b> For those running multiple sites.	<b>CHOICE PLUS</b> With added privacy and security features.	<b>PRO</b> Get more power with optimized web resources.

## Step 3

# CHOOSE YOUR DOMAIN NAME

Included with your hosting plan is a FREE domain name. Enter the domain name you want for your website in the first text field.

The screenshot shows the Bluehost domain selection page. At the top left is the Bluehost logo. The main heading is "Next we'll set up your domain." Below this is a sub-heading: "Your domain will be your website's address. You can create a new domain, use one you already own, or make one later." There are two main options presented in rounded rectangular boxes. The first box is titled "Create a new domain" and contains a text input field, a dropdown menu currently set to ".com", and a "Next" button. Below the input field is the text "Search available domains". The second box is titled "Use a domain you own" and contains a text input field and a "Next" button. Below the input field is the text "Enter your existing domain name". At the bottom of the page, there is a link that says "Or you can skip this step and create a domain later. I'll create my domain later >".

If you are undecided right now, no problem. Choose one at another time "I'll create my domain later."

## Step 4
